hunsa.dev@gmail.com

Software developer specializing in Odoo ERP and full-stack development. I build and customize Odoo modules for clients in multiple industries, especially retail and F&B, and build early-stage products as a startup co-founder. Comfortable presenting to an audience, including live Odoo demos on stage, and explaining technical solutions to non-technical clients. Background in data analysis, with research published on IEEE.

EDUCATION

- **Bachelor of Science in Computer Science**
Bangkok University 2021 – 2025
GPA 3.90

SKILLS

- Python (eg. LLM, Pandas, Scikit-learn)
- Odoo Development (Customization, Upgrades)
- REST API Design & Integration
- SQL (DDL, DML, DQL)
- Kotlin (Android, Jetpack Compose)
- JavaScript / TypeScript
- C#, HTML/CSS

TECH STACK

- Odoo
- PostgreSQL, MySQL
- Supabase, Cloudflare
- NextJS / React
- Postman, Git
- MediaPipe (On-device ML)
- Excel, PowerBI

STRENGTHS

- System Design
- Problem-solving
- 0-to-1 Product Building
- Collaboration
- Quick Learner

LANGUAGES

- Thai
- English

Experiences

Software Developer at Newlogic

Design API architecture, build custom Odoo modules, and customize, extend, and upgrade existing modules to fit client workflows. Deliver ERP solutions for clients in multi-brand retail group, F&B, leisure, and certification services.

Odoo

Python

PostgreSQL

REST API

XML/QWeb

JavaScript

Co-founder at Stealth Startups

Building two early-stage consumer products from 0 to 1 (mobile and web). Own system architecture, backend, and deployment.

Kotlin

Supabase

PostgreSQL

React

Cloudflare

ML

Web Developer at LearnCloud and Novituz

Built responsive interfaces and interactive features for e-learning platforms, integrating APIs for course and learner management.

NextJS

TypeScript

CSS

REST API

Supabase

Data Management Internship at Thanachart Insurance

3-month internship as a data analyst, cleaning and analyzing insurance data, with additional full-stack development work.

SQL

Excel

Data Cleansing

PowerBI

Langchain

Python

Research: Exploring the Impact of Organizing Events to Self-Learning Behavior on an Online Learning Platform

<https://ieeexplore.ieee.org/document/10315386>

This paper examines self-learning behavior on the FutureSkill platform.

Role: **Data engineering and data analyst**

Python

MySQL

Data Cleansing

Statistical data analysis

PowerBI

Earlier Projects (University and High school)

- **Army Air Defense System:** sub-developer for a Thai military operations program (WinForms, .NET, MySQL)
- **Play Plern Learn Ground:** English-learning MMO game, Torkla #7 scholarship by NECTEC & SCB Foundation (C#, Unity, PHP)
- **BABEL:** Honorable Mention at NSC 2021, Entertainment Program (C#, Unity, PHP, MySQL)
